This year our chosen beneficiary is MASS (Marshfield Action Sports Syndicate) an organization whose purpose is to create a top-quality concrete skate park in Marshfield, MO.

Marshfield currently has 3 months of residential property inventory, indicating a balanced market where supply and demand are relatively equal. However, the inventory has increased 33.62% over the past year, which could potentially lead to a shift towards a buyer's market in the near future. Despite the increase in inventory, properties are selling quickly and close to listing price.

Overall, these metrics paint a picture of a dynamic real estate market with a healthy balance between supply and demand. Buyers may need to act quickly to secure a property, while sellers can take advantage of the current market conditions to achieve a favorable sale price. By understanding these correlations, both buyers and sellers can make informed decisions in the real estate market.
