

Chamber Partner Spotlight

Proud to be a part of the Marshfield Community!

About Us

Care for Our Community

We make accessing healthcare simple. Jordan Valley Community Health Center offers a wide variety of services for the whole family, all in one place.

Who We Are

A strong community is a healthy one. Founded in 2003, we are Missouri's largest Federally Qualified Health Center. We serve 67,000 patients each year. Our collaborative approach to healthcare focuses on bettering our communities—one person at a time.

Mission

Improving our community's health through access and relationships.

Vision

Partnering to provide essential leadership in healthcare for the underserved.

Marshfield holds a special place in the history of Jordan Valley. It is the location of our first satellite clinic which opened in 2009. We were so proud to become a part of this community fifteen years ago. We are grateful for your continued support and partnership.

THURSDAY

Congratulations to [Holiday Inn Express Marshfield \(Springfield Area\)](#) for earning the Thankful Thursday spotlight! Read below the kind words Carol shared.
"The owner, Mr. Patel is a community minded individual who treats everyone fairly. He spends a lot of money in the community and hires from the

community as well. He is a good business man!!!"

Thank you, Mr. Patel and the staff at the Holiday Inn Express, Marshfield for going above and beyond to serve our community! We are so thankful for you!! We hope you enjoy your sweet treats from [Megan's Bake Shop!](#)

Who do you know that goes above and beyond for our community? Nominate them at the link below.

104 Wilson Way, Marshfield

Admission \$15

♥ Why Learn Hands-Only CPR?

Cardiac arrest – an electrical malfunction in the heart that causes an irregular heartbeat (arrhythmia) and disrupts the flow of blood to the brain, lungs and other organs – is a leading cause of death. Each year, more than 350,000 EMS-assessed out-of-hospital cardiac arrests occur in the United States.

When a person has a cardiac arrest, **survival depends on immediately receiving CPR from someone nearby.**

According to the American Heart Association, about 90 percent of people who suffer out-of-hospital cardiac arrests die. CPR, especially if performed immediately, can double or triple a cardiac arrest victim's chance of survival.

♥ Be the Difference for Someone You Love

If you are called on to give CPR in an emergency, you will most likely be trying to save the life of someone you love: a child, a spouse, a parent or a friend.

Over **70 percent** of out-of-hospital cardiac arrests happen in homes.

Only about 40% of people who experience an out-of-hospital cardiac arrest receive the immediate help that they need before professional help arrives.

Hands-Only CPR has been shown to be as effective in the first few minutes as conventional CPR for cardiac arrest at home, at work or in public.

Hands-Only CPR has just two easy steps, performed in this order:

1 Call 911 if you see a teen or adult suddenly collapse.

2 Push hard and fast in the center of the chest to the beat of a familiar song that has 100 to 120 beats per minute.

♥ Call 911

The telecommunicator on the other end of the line can assist you while getting the emergency help you need on the way.

♥ Music Can Save Lives

Song examples include "Stayin' Alive" by the Bee Gees, "Crazy in Love" by Beyoncé featuring Jay-Z, "Hips Don't Lie" by Shakira or "Walk the Line" by Johnny Cash. People feel more confident performing Hands-Only CPR and are more likely to remember the correct rate when trained to the beat of a familiar song.

When performing CPR, you should push on the chest at a rate of 100 to 120 compressions per minute, which corresponds to the beat of the song examples above.

♥ Take 90 Seconds to Learn How to Save a Life

Watch the 90-second video. Visit heart.org/handsonlycpr to watch the Hands-Only CPR instructional video and share it with the important people in your life. Hands-Only CPR is a natural introduction to CPR, and the AHA encourages everyone to learn conventional CPR as a next step. You can find a CPR class near you at heart.org/CPR.

NOTE: The AHA still recommends CPR with compressions and breaths for infants and children and victims of drowning, drug overdose, or people who collapse due to breathing problems.

CPR week is June 1-7 | To learn more, visit heart.org/handsonlycpr | #CPRwithHeart
